

ROME 2018

ARTISTIC ROLLER SKATING

INTRODUCTION

All those registered to the seminar can attend any lesson of their choice, including those with different subjects for specialists and those for judges and coaches.

For the coaches there will be some specific technical lessons that compare the basic notions with the more advanced ones, with the aim of standardizing the technique worldwide in order to establish a Roller Artistic Skating International School.

All these notions will be gathered and will constitute the base of a future exam for licensing World Skate coaches.

The evening lessons will be more general with a specific focus on the relation between Roller Artistic Skating and Ice Artistic Skating.

PROGRAM LEGEND

FREESKATING ○ - DANCE ⬡ - PRECISION ☆ - PAIRS □
